

Download the "AdventureWorksDW2014" database and restore the database.

<http://www.imenemami.com/adminBD/sampleBD/AdventureWorksDW2014.bak>

In the AdventureWorksDW2014 database:

1. Add a new filegroup called SECONDARY to the database.
2. Change where the table dbo.DimAccount is stored to the SECONDARY filegroup.
3. Change where the table dbo.DimAccount is stored to the PRIMARY filegroup.
4. Partition the dbo.DimDate table, so that any rows where the FiscalYear is below 2010 goes in the Primary filegroup, and 2010 and later goes in the SECONDARY file group.
5. Apply Page Compression to dbo.FactInternetSales.
